B2B Trust Certificate — Features, Benefits & Application Guide

Fee: $1,950 USD (Strictly from Applying Company Corporate Bank Account) | Complete Process Time: 7 Days

Prepared for: Trade Heaven Global Operations & Treasury | Date: 2026-11-10

What a Trade Heaven B2B Trust Certificate Shows & Proves

A B2B Trust Certificate (Serial Format: THC-TRUST-2026-XXXX) proves that an independent third party has verified a company's quality systems, data security, country-specific government legal standing, and real-world trade performance rather than relying on self-reported marketing claims.

1. The 5 Core Independent Verification Pillars

01. Verified Quality & Management (ISO 9001:2015 · Six Sigma · IATF 16949 · SGS/TÜV)

Confirms repeatable, documented quality control processes, batch calibration logs, and AQL 1.5/2.5 pre-shipment inspection readiness.

02. Security & Data Protection (SOC 2 Type I/II · ISO/IEC 27001 · ACID Escrow Controls)

Proves auditor-tested information security, encrypted Proforma Invoices & L/C documents, and verified corporate bank account coordinates.

03. Country-Specific Legal & Regulatory Compliance (Sovereign Government Documents)

GST & DGFT IEC are checked strictly in India. Outside India, Trade Heaven checks the official government documents of that specific country: IRS EIN & State Incorporation (USA), VAT & EORI (UK/EU), ABN/ACN (Australia), FTA TRN & Trade License (UAE), or USCC (China).

04. Operational Integrity & Independence (Objective Third-Party Evaluator Proof)

Replaces self-written website copy with an unbiased third-party audit dossier verifying physical factory/warehouse premises and export records.

05. Performance & Customer Satisfaction (Verified Buyer Reviews · G2 & Google Trust Signals)

Validates real-world contract fulfillment through authenticated Bill of Lading shipment records and peer buyer satisfaction ratings.

2. Key Features & How It Benefits Suppliers and Buyers
